

Welcome to October's edition of our i-Bulletin newsletter for Exporters.

This month's edition will be highlighting the results of our latest Certification Inspection, our next Export Expert Training Course and our new Dangerous Goods Awareness Training. We also have an update on trading with Canada in line with the signing of CETA.

Please be aware that the main documentation office will be closed between 12.00pm to 3.00pm on Friday 3rd November with only a limited service in Colchester.

Export Documentation Focus

Our department recently had its Bi-Annual Certification Inspection, performed by the British Chambers of Commerce. All Chambers of Commerce who issue export documentation have to pass this in order to continue to operate.

We are pleased to announce that we passed with flying colours, with this being the best inspection the Essex Chambers has had. We were praised for our high standard of service with particular emphasis made to the accuracy of our HMRC Customs documents, EUR1 and ATR forms. The inspector searched through many of these documents in order to find a minor discrepancy to report. Our inspector said that

"Essex Chambers is a credit to the International Trade Network"

We would like to thank all our customers for their continued support in keeping our standards high and we will endeavour to do 'even better' on the next one!

Export Expert Training

Our next course in November will be

Customs Special Procedure focusing on IP & OP

This will cover

- Import and Export Customs Clearance Entries SAD/C88
- Tariff & Classification, Commodity Codes & CPC Codes
- Relief from Customs Duty, Import VAT
- Standard Exchange System
- Economic Codes (new Economic Codes under UCC), Usual Forms of Handling
- Other Customs Regimes; ATA Carnets, RGR, End Use, Customs Warehousing
- How the new Customs Law, Union Customs Code (UCC) impacts on above and more.....[Full course content](#)

Coming up in December - Rules of Origin: Preference & Non-Preference

Monthly Focus - Dangerous Goods

After several enquiries surrounding the topic of Dangerous Goods we decided to run awareness training to give companies a chance to find out the basics surrounding this topic.

This course is designed to provide an introduction to the air, road and sea regulations involved with Dangerous Goods. By the end of the day, delegates will understand the regulations for the different modes of transport, be familiar with the classes and packing groups, be able to recognise the labels and be aware of documentation requirements.
